• Notes and explanations regarding the appropriate uses of our earnings projections

All projections provided in this document are based on the most accurate information available at the time of this writing. However our actual results may differ from our projections due to various unforeseen reasons. For further information regarding our earnings projections, please refer to page twelve of this document.

1. Earnings Performance

(1) Earnings Performance Analysis

(Consolidated Interim Earnings Performance)

(Units: million yen)

	Last Interim FY3/07	Current Interim FY3/08	Change %yy
Net Sales	30,850	39,520	28.1
Operating Income	2,800	3,011	7.5
Ordinary Income	2,838	2,783	-1.9
Net Income	1,523	1,571	3.1

During the interim period under review, favorable corporate earnings and subsequent strong capital investments contributed to improvements in both the labor markets and wages, as well as to the continued gradual recovery in the overall economy. However the subprime loan problems in the United States and rising crude oil prices are among uncertainties clouding the economic horizon.

Against this backdrop, our main dormitory business sales grew on the back of increases in sales in our student dormitories due to stronger relationships with universities and vocational schools, in our employee dormitories as a result of improvements in the labor market with increased hiring of younger workers and strong demand for outsourcing of training facilities, and in our Dormir facilities (Studio type condominium dormitories) owing to firm occupancy rates. Furthermore high and stable occupancy rates at our existing Dormy Inn hotel facilities, the opening of six new hotel facilities including "Dojima River Hot Springs Tenzin no Yu Dormy Inn Umeda East," "La Vista Kushiro River," "Natural Hot Springs Hagi no Yu Dormy Inn Sendai Station," "Natural Hot Springs Azusa no Yu Dormy Inn Matsumoto," "Natural Hot Springs Tenpoku no Yu Dormy Inn Wakkanai," and "Natural Hot Springs Kaiji no Yu Dormy Inn Koufu," and the opening of another two resort hotels including "La Vista Daisetsuzan" and "Okuhida Hot Springs Hirayu Takumi no Yado Miyamonouan" all contributed to growth in sales of our hotel business. Moreover the early completion and delivery of new real estate development projects allowed sales of our construction business to grow.

Consequently during the interim period under review our net sales rose by 28.1% year-over-year to ¥39,520 million, operating income grew by 7.5% year-over-year to ¥3,011 million, ordinary income declined by 1.9% year-over-year to ¥2,783 million, and net income increased by 3.1% year-over-year to ¥1,571 million.

Earnings by Key Business Segment

<Dormitory Business (Student, Corporate, Dormir, Outsourced)>

(Units: million yen)

	Last	Current	Change	
	Interim FY3/07	Interim FY3/08	(%)	
Sales	17,560	18,764	6.9	
Operating Income	3,278	3,583	9.3	

(1) Dormitory Business

Despite the continued negative impact of the declining birthrates in Japan affecting the operating environment for our dormitory business, the advancement rates of high school students entering universities and vocational schools in major metropolitan areas is on the rise. Against this backdrop, we leveraged our "healthy food menus," the high level of security at our "fully supervised dormitories," and other unique services and features of our dormitories to fortify our relationships with various universities and vocational schools and to provide our services to an even greater number of residents.

As a result of these and other efforts, the number of our contracts rose 3.7% year-over-year to 15,771 residents despite a slight 0.9% year-over-year decline in the number of schools contracted, and our student dormitory sales grew by 4.9% year-over-year to ¥11,076 million. Moreover during the interim period the number of contracts with four year universities grew strongly.

(2) Corporate Dormitory Business

Along with the strong rise in hiring of new student graduates of 18.1% year-over-year to 825,000 accompanying the improvement in corporate earnings, we also note a continuation of the trends for companies to "outsource their corporate dormitories." At the same time we note corporations "reviewing their corporate housing strategy" and renewed interest in using corporate dormitories as means of promoting communication between younger employees. With these trends in place, we continued to provide solutions to corporate facilities management and operational issues, and we also focused upon providing management services for corporate training facilities. Our efforts allowed our corporate dormitory division to see a 1.8% year-over-year increase in the number of contracting companies to 972, a 13.2% year-over-year rise in the number or contracted residents to 6,264, and an 11.9% year-over-year increase in sales to ¥4,868 million.

(3) Dormir Business (Studio-Type Condominiums)

In our Dormir business we applied the know-how and expertise amassed in our student and corporate dormitories to increase our supply of studio-type condominiums to residents to satisfy the quickly diversifying needs of our residents. Furthermore we leverage our network of students and corporate workers to introduce residents to various facilities which we manage as a means of increasing their occupancy rates. Consequently the number of contracted residents rose by 2.8% year-over-year to 3,543 and our sales grew by 3.7% year-over-year to \mathbb{\fomathbb{\text{4}}1,543} million.

(4) Outsourced Dormitory Business

In our outsourced dormitory business we manage dormitories owned by corporations, universities and vocational schools. And during the term under review demand for outsourcing services continued to grow along with the recovery in corporate earnings. Furthermore we were able to capture more orders by leveraging of our strong reputation as "Japan's leading boarding house service provider" to differentiate our company from our competition and our sales rose by 9.5% year-over-year to ¥1,276 million.

Consequently as of the end of September the overall number of facilities in our dormitory business reached 385, our capacity grew by 1,500 to 28,488 residents, the number of contracted residents rose by 1,390 to 25,578 to whom we provided housing, and our occupancy rate rose to 0.2% points to 89.8%. These results allowed our overall dormitory business to record sales growth of 6.9% year-over-year to \mathbb{\fomathbb{\text{\text{Y}}}3,764 million, and operating income growth of 9.3% year-over-year to \mathbb{\mathbb{\text{\text{Y}}3,583 million.}}

<Hotel Business (Dormy Inn, Resorts)>

(Units: million yen)

	Last	Current	Change	
	Interim FY3/07	Interim FY3/08	(%)	
Sales	6,027	10,062	66.9	
Operating Income	-349	5	_	

(1) Dormy Inn Business (Business Hotel Business)

We make special efforts to listen to each and every one of our customers' comments and to reflect as many of these in our hotel services in our business strategy to capture new demand for hotels, reduce labor costs by eliminating less popular services, and create a unique business model. Most recently we paid special attention to providing services such as "large hot spring type bathing facilities" and "good tasting breakfasts" in addition to implementing strategies to reflect the requirements of late-night check-in customers, as well as those of tourist travelers and customers using our hotels on weekends. Consequently our occupancy rates remained relatively at a relatively high 82.0% (Down 0.4% points). During the term under review we opened six new facilities including "Dojima River Hot Springs Tenzin no Yu Dormy Inn Umeda East," "La Vista Kushiro River," "Natural Hot Springs Hagi no Yu Dormy Inn Sendai Station," "Natural Hot Springs Azusa no Yu Dormy Inn Matsumoto," "Natural Hot Springs Tenpoku no Yu Dormy Inn Wakkanai," and "Natural Hot Springs Kaiji no Yu Dormy Inn Koufu." Consequently our sales rose by 36.7% year-over-year to \mathbb{4}4,342 million.

(2) Resort Business (Resort Hotel Business)

In our resort business, we strive to create hotels that offer "reasonable prices and high quality resort lifestyles" and "comfortable accommodations," and we have been able to achieve high occupancy rates of 69.5%, up 2.0% points year-over-year. During the term under review, we opened two new large hotels based on our principle of "comfortable accommodation" theme called "La Vista Daisetsuzan" and "Okuhida Hot Springs Hirayu Takumi no Yado Miyamonouan." Furthermore the five large hotel facilities we opened during the previous term are beginning to contribute to our earnings. Consequently sales grew by 100.7% year-over-year to ¥5,719 million.

As a result of these efforts we recorded a 66.9% year-over-year increase in our sales to \(\xi\)10,062 million, but due to opening costs associated with these eight new facilities our operating income amounted to \(\xi\)5 million.

<Contracted Services Business>

(Units:	million yen)	

	Last	Last Current	
	Interim FY3/07	Interim FY3/08	(%)
Sales	5,711	5,506	-3.6
Operating Income	342	216	-36.9

Our contracted services business includes maintenance for offices and residences, rental of consigned buildings, and parking lot management services. Amongst these services we note increasingly severe pricing competition in the building maintenance industry which has been further compounded by difficulties in securing workers due to tightness in the labor market. Against this backdrop under the term under review, in our contracted services we seek to raise our competitive advantage by strictly controlling costs and raising our productivity.

<Food Service Business (Restaurants, Outsourced Cafeterias, Hotels and Restaurants)>

(Units: million yen)

	Last	Current	Change
	Interim FY3/07	Interim FY3/08	(%)
Sales	1,855	2,473	33.3
Operating Income	-74	-3	_

While the gradual recovery in the economy lead to an improvement in consumer spending, the operating environment of our food services business remained difficult due in part to the diversifying tastes and needs of our customers. With these trends in mind, we implemented a strategy where we opened new restaurants in hotels, increased our variable cost controls, and reviewed our earnings structure for this business.

Consequently sales of our food service business rose by 33.3% year-over-year to \(\frac{\text{\frac{4}}}{2}\),473 million and we recorded an operating loss of \(\frac{\text{\frac{4}}}{3}\) million.

<Construction Business>

(Units: million yen)

	Last	Current	Change
	Interim FY3/07	Interim FY3/08	(%)
Sales	5,378	6,021	12.0
Operating Income	196	3	-98.3

In our construction business, the large inflow of foreign and domestic capital into the Japanese real estate market caused a "real estate fund bubble" in parts of central Tokyo and other major metropolitan areas, which gradually spread to other regions as well. This lead to a continuation of the severe competition with our rivals and forced us to pay extra attention to develop new branch offices in key locations and secure properties at prices that would allow us to realize profits. Against this backdrop, we continued to focus upon the development and sales of hotels, dormitories and condominiums to capture strong demand in the Tokyo region. Furthermore we were able to shorten the construction period on many of the new projects we started during the term under review which enabled us to deliver condominiums ahead of schedule.

Consequently our construction business sales rose 12.0% year-over-year to ¥6,021 million. However our operating income declined by 98.3% year-over-year to ¥3 million due in part to increases in materials costs brought on by the rise in crude oil prices and to higher sales, general and administrative costs.

<Other Business>

(Units: million yen)

	Last Interim FY3/07	Current Interim FY3/08	Change (%)
Sales	1,919	2,182	13.7
Operating Income	127	102	-19.8

(Units: million ven)

(Units: million yen)

Our other business is comprised of headhunting, advertising, rental property brokerage and management, and financial services, in addition to our "wellness life" business (Residential property management business). During the term under review our other business sales grew by 13.7% year-over-year to \(\frac{1}{2}\),182 million while our operating income declined by 19.8% year-over-year to \(\frac{1}{2}\)102 million.

(Full Year Earnings Projections)

(Consolidated Earnings)

a Barnings)		(mis: mimon yen)
	Last Term	Current Term Projection	Change
	FY3/07	FY3/08	(%)
Net Sales	66,287	74,200	11.9
Operating Income	3,745	4,900	30.8
Ordinary Income	3,787	4,460	17.8
Net Income	2,413	2,790	15.6

(Non-Consolidated Earnings)

	Last Term FY3/07	Current Term Projection FY3/08	Change (%)
Net Sales	47,967	57,200	19.2
Operating Income	2,633	3,990	51.5
Ordinary Income	3,113	4,000	28.5
Net Income	2,185	2,280	4.3

While there are numerous positive factors supporting the Japanese economy including the continuation of favorable corporate earnings, aggressive capital investments, and rapid increases in hiring of new graduates which led to an improvement in the employment situation for younger workers, there are also many uncertainties lurking on the economic horizon such as the sub-prime loan problem in the United States and higher crude oil prices globally. With these trends in mind the Kyoritsu Group endeavors to strengthen our overall competitive position, to raise the effectiveness of our management, and to review and improve our earnings structure.

In our main dormitory business, we recorded high occupancy rates of 96.3% in April, which we consider to be a leading indicator for how our business will trend during the full year. And during the interim period under review, we developed 18 new dormitories in the Tokyo metropolitan area, bringing the total number of dormitories and rooms we manage to 385 and 28,488 respectively. Furthermore we have taken steps to reflect the diversifying needs of our residents in the dormitories we develop and manage. With regards to our marketing function, we continued to fortify our relationships with major universities nationwide and leveraged our cafeteria food service function as part of our marketing efforts in newer operating regions for our student dormitory business. At the same time we strengthened our relationships with vocational schools and college preparatory schools to become an integral part of their student services. In the area of corporate dormitories, we leveraged our ability to help companies convert fixed costs to variable costs by providing them with our dormitory management services to satisfy their growing need for corporate dormitory and other facility outsourcing. We will also market our outsourcing management services of corporate training facilities as part of our overall marketing strategy.

With regards to our hotel business, our provision of "large hot spring type bathing facilities" and "good tasting breakfasts" in our Dormy Inn business (Business hotels) has been received favorably and we will endeavor to achieve even higher levels of customer satisfaction through the development of new services. In our resort

business (Resort hotels) a new facility called "Nanki Shirahama Hot Springs Hama Chidori no Yu Kaishu" was opened in November and brings our total resort hotel network to 15, which provide "comfortable accommodations" through comprehensive amenities and services while maintaining our goal of achieving high profitability.

In our contracted services business, severe pricing competition within the industry continues due to contract reviews and consolidation of service providers, demands to reduce prices, and cancellation of contracts by building owners. Therefore we seek to raise our competitive position and the trust of our customers by providing them with an increased level of expertise and a more comprehensive service menu, in addition to maintaining high levels of service quality.

In our food service business we will continue our efforts to improve profitability by focusing upon strictly controlling our variable costs. In addition we will also use our expertise in restaurant operations to make our restaurants in hotels and golf courses more profitable and to develop external customers for these facilities.

With regards to our construction business we will continue to develop our Dormir (Studio-type condominium dormitories) student and corporate dormitories and hotels in the Tokyo metropolitan area where demand remains strong.

In our other business area, we will strengthen our earnings structure by promoting our comprehensive human resources business to respond to the needs of our customers.

Based on these various strategies we project our sales, and operating, ordinary and net incomes to rise by 11.9% year-over-year to \pm 74,200 million, 30.8% to \pm 4,900 million, 17.8% to \pm 4,460 million, and 15.6% to \pm 2,790 million during full fiscal year March 2008.

(2) Financial Conditions

1. Assets, Liabilities and Net Asset Conditions

As of the end of the interim period under review, our total consolidated assets increased by ¥4,334 million from the last fiscal year end to ¥114,842 million. We attribute this increase to growth in buildings and structures, land, consigned buildings and structures, and marketable securities. Furthermore our liabilities grew by ¥3,318 million to ¥86,729 million from the end of the previous fiscal year. We attribute this increase primarily to a rise in short term debt. In addition, net assets rose to ¥28,112 million on the back of higher retained earnings reserves. Subtracting minority holdings from our net assets we saw net capital of ¥27,964 million and our net asset ratio was 24.4%.

2. Interim Period Consolidated Cash Flow Conditions

During the interim period under review, our consolidated cash and equivalents declined by \\$173 million from the previous interim period to \\$10,343 million. We provide a summary of our various cash flows below.

(Cash Flows from Operating Activities)

(Cash Flows from Investing Activities)

During the interim period under review, investments in dormitory and hotel facilities, acquisitions of other new facilities, and replacement of existing facilities combined with cash used to acquire marketable securities and we saw our investment cash needs grow by \mathbb{\pmathbb{\text{\text{4}}}}375 million to a net cash outflow of \mathbb{\pmathbb{\text{\text{\text{1}}}}382 million.

(Cash Flows from Our Financing Activities)

In our financing activities increases in debt needed to fund capital investments for the expansion of our business resulted in a net cash inflow of ¥10,399 million, a ¥11,849 million improvement from the net cash outflow seen in the previous interim period.

(Units: million yen)

	Last	Current	Change
	Interim FY3/07	Interim FY3/08	(%)
Cash Flows from Operating Activities	-2,798	-2,393	404
Cash Flows from Investing Activities	1,992	-11,382	-13,375
Cash Flows from Financing Activities	-1,450	10,399	11,849
Cash and Equivalents at End of Interim	10,517	10,343	-173

Trends in our cash flow indicators for our parent and group companies are listed below.

	Interim FY3/06	FY3/06	Interim FY3/07	FY3/07	Interim FY3/08
Equity Ratio (%)	25.0	26.0	26.1	24.4	24.4
Net Asset Ratio, Market Capitalization Based (%)	37.7	61.1	33.7	36.9	27.0
Debt Recovery Period (years)	_	7.7	_	14.7	_
Interest Rate Coverage Ratio	_	10.6	_	4.9	_

(note) 1. Each indicator is based on consolidated financial data.

- 2. Each indicator is calculated as follows:
 - (1) Equity Ratio: (Net Assets Stock Options Minority Interests) / Total Assets
 - (2) Net Asset Ratio: Market Capitalization / Total Assets
 (Market capitalization = Term end share price X Term end shares outstanding, excluding treasury stock)
 - (3) Debt Recovery Period: Interest Bearing Debt / Operating Cash Flow
 - (4) Interest Coverage Ratio: Operating Cash Flow / Interest Payments
- 3. Cash flow is based on our operating cash flows.
- 4. Interest-bearing debt includes all of the liabilities which bear interest payments on our consolidated balance sheet.
- 5. We use interest payments from our consolidated cash flow statements.

(3) Our Basic Policy Regarding the Distribution of Profits

We consider the capital contributed by shareholders to be invaluable, and place a high priority on the distribution of profits to our shareholders in line with our earnings performance. One of our goals is to maintain a stable level of dividends over the long-term and we have established a target dividend payout ratio of 20%. During recent years we have been able not only to increase our dividends, but also to offer stock splits, effectively raising our overall dividend payout.

During the interim period under review, we expect to pay the same level of dividends of ¥18 per share. However because we implemented a 1.2 for 1 stock split in October 2006, the overall dividend payment is higher when compared with the previous interim period. Furthermore we expect to pay another ¥18 per share dividend at the end of the fiscal year, bringing our total dividend payment to ¥36 per share for the full year.

Furthermore we began a stock buy-back program with an upper limit of \(\xi\)1.5 billion or 750,000 shares on September 26, 2007. The main purpose of this buy-back was to return profits to our shareholders and is a reflection of our strategy of responding flexibly to changes in our operating environment.

With regards to distribution of profits to shareholders in the future, we will consider the potential for further measures to return profits to our shareholders with a view to the conversion of our existing convertible bond type stock options as part of our strategy of maintaining a stable level of dividend payments. At the same time we also seek to retain a level of earnings that will give our management the freedom to make necessary capital investments in response to changes in the market and to develop new businesses whenever appropriate.

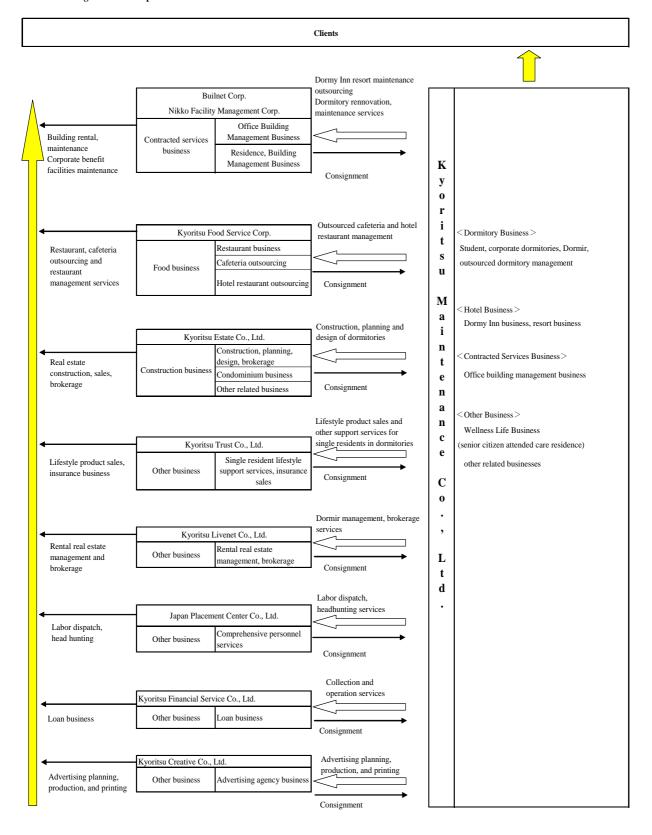

1. Corporate Structure

The Kyoritsu Maintenance Group consists of the parent company, 17 subsidiaries, and four affiliated companies. Our main businesses consist of student and corporate dormitories, hotels, contracted services, food service, construction business, and other business.

The details of our businesses and the services provided by our various subsidiaries and affiliates are listed below.

Business Segment	Business Description	Participating Companies
Dormitories	Student and corporate dormitories, Dormir and outsourced dormitory management	Kyoritsu Maintenance Co., Ltd. Four other companies
Hotels	Dormy Inn (Long-term stay business hotels) Resort hotels	Kyoritsu Maintenance Co., Ltd. Six other companies
Contracted Services	Office building management business Residential property management business	Builnet Corporation Kyoritsu Maintenance Co., Ltd. Two other companies
Food Services	Restaurant business Outsourced cafeteria business Hotel restaurant outsourcing business	Kyoritsu Food Services Co., Ltd.
Construction	Construction, planning, design, brokerage, condominium sales, other related real estate development business	Kyoritsu Estate Co., Ltd.
Other Businesses	Wellness Life Business (senior citizen residence management and operations) Brokerage and management of rental real estate Single resident insurance and other lifestyle support services Comprehensive human resources business Finance business Advertising business Other related businesses	Kyoritsu Maintenance Co., Ltd. Kyoritsu Livenet Co., Ltd. Kyoritsu Trust Co., Ltd. Nihon Placement Center Co., Ltd. Kyoritsu Financial Service Co., Ltd. Kyoritsu Creative Co., Ltd.
