**Notice Regarding the Timing of Disclosure of**  
**"Financial Results Briefing Materials"**

We hereby announce that we have decided to change the timing of the disclosure of the "Financial Results Briefing Materials" in the announcement of the financial results for the first and third quarters of the fiscal year in order to provide information to investors more quickly.

Note:

Until now, the Company has released detailed "Financial Results Briefing Materials" approximately one week after the announcement of financial results for the first and third quarters and at the same time with the financial results for the second and forth quarters. In order to provide information to investors more promptly from the current fiscal year, the Company will disclose the "Financial Results Briefing Materials" for the first and third quarters at the same time as the announcement of financial results. We will also strive to hold financial results briefings for the second and forth quarters as soon as possible.

We will continue to strive to further enhance our IR activities, and we ask for your continued understanding and support.
